Marshall Families:

Can we please borrow some tools for our Marshall CARES Projects?

The more tools, the better; we will have a lot of hard-working students planning to get a LOT of work done! Here is our list of tools needed for our day of landscaping, clean-up, and beautification projects: around the Marshall Campus.

- **Shovels**—pointed blades, flat spades, long-nose, any length handle, etc.!
- **Rakes**—to clean up debris, weeded areas, and level ground.
- **Brooms**—push brooms or side-sweep, for sidewalks, parking lot, etc.
- **Weeding Tools**—dandelion pullers, trowels, cultivators, hoes, etc.
- **Loppers or Hand Clippers/Pruners**—to cut branches, bushes, etc.
- **Small Tree Saws/Pruning Saws**—to cut back small-to-medium limbs.
- **Wheelbarrows**—to move yard debris to central locations.
- **Gas-Powered Leaf Blowers**—adults will operate these.

**THANK YOU!** Please label your tools with your name on duct tape (works well), and bring them to Marshall Tuesday, May 18th through Thursday, May 20th. You can drop them off under the cover at Marshall’s front entrance. We’ll use the tools on Friday, May 21st, and they’ll be ready to be picked-up at the same location at the end of the day.

We can use additional adult assistance during our Campus project day on May 21st. Talk to your child or their teacher to see if you can join their team or contact Paige Sorensen at 866-7324 or soro@msn.com if you can spare some time to enjoy the outdoors with us, or if you have any questions about lending tools.
